

ANSWERS

Exercise 1 – VERB TENSES

Complete the blanks with the correct verb tenses.

Introduction

Recently, society has witnessed (to witness) the death of two of the smartest and most influential men who have ever lived (to live). Both of them contributed (to contribute) to improve daily life in very unique ways. From ordering an Uber to finding a location through Waze or simply distracting a cranky baby with a Disney cartoon to watch on a cell phone would not be (not to be) possible today if it were (to be) not for these men. Apple founder, Steve Jobs, and Disney creator, Walt Disney, came up (to come up) with incredible inventions that have changed (to change) the world and our lives forever. It is arguable that Steve Jobs' inventions changed (to change) life around the globe more than Walt Disney's because Apple creations have (to have) a more significant impact in everyday life.
